

SAFE. RELIABLE. INNOVATIVE. AMERICAN-MADE.

The All-New 2027 Endera Type A School Bus

Ford and General Motors Chassis • Gasoline • Propane • Integrated All-Electric EV Configurations Available

Endera redefines student transportation with premium Type A school buses built to the highest standards of safety, comfort, and performance. Our 2027 models feature a modern aerodynamic design, spacious interiors, and advanced engineering — all manufactured in the USA with Buy America compliance. Whether you need traditional fuel or zero-emission electric, Endera has the right solution for your fleet. Good looking, and long-lasting buses for your fleet!

BUILT IN OHIO, USA • ROBUST AND TESTED CONSTRUCTION • BUY AMERICA COMPLIANT

THE ENDERA ADVANTAGE

92.25" interior features one of the best-in-class aisle widths — more room for passengers and drivers to navigate, and to secure wheelchairs.

KEY HIGHLIGHTS

31" Clear Opening Entrance Door • 79" Headroom • Galvanized Steel Cage with One-Piece Roof Bows • 14 Gauge Pan-Formed Severe Duty Floor
KY Pole and CO Rack Tested • Aerodynamic Front Cap • Composite Rear Cap With Bonded Glass • 5/8" Marine Floor with One-Piece Covering
Intermotive FlexTech Electrical System • Integrated Lower Dash Switch Panel with Cupholder • LED Exterior and Interior Lighting Package

Unmatched Safety Standards

Fully galvanized steel framework, 14 gauge pan-formed galvanized steel severe duty floor, premium materials, and advanced safety systems exceed industry standards. Galvanized steel cages provide superior rust and corrosion resistance. Aluminum exterior skins, with galvanic isolation, provide enhanced corrosion resistance. Kentucky Pole Tested and Colorado Rack and Load Tested structure provides enhanced peace-of-mind.

Superior Comfort & Spacious Design

Our signature 79 inch headroom, 31 inch wide entrance door, and spacious 92.25" interior width provide comfort for passengers of all ages and abilities. Modern track seating, excellent climate control, and large windows create a comfortable, bright environment for every ride.

Flexible Powertrain Options

Choose the powertrain that fits your needs and sustainability goals: traditional gasoline, propane, or all-electric integrated EV with fast charging capability. Endera supports your transition to cleaner transportation at your own pace with the same high-quality platform.

Customizable & Built to Last

Available in 4–6 window section configurations with flexible track seating, wheelchair accessibility options (including raised flat floor), and storage solutions tailored to your district. Robust construction with high-quality components ensures long-lasting performance and low total cost of ownership.

Popular Options Available

Endera offers a large selection of optional equipment including 3-Point Seat Belts, Child Restraint Seats, Activity Seats, Body Air Conditioning (Skirt or Rooftop Condenser), White Roof, Child Reminder Systems, Overhead Luggage Racks, Rear Storage Racks, First Light Illuminated Signs and Stop Arms, Acoustic Headliner, SpaceAge Composite Subfloor, Roof Hatches, Fire Suppression, Remote/Heated Mirrors, Stainless Mirror Arms, Backup and 360 View Cameras, Parallel Grabrails, Vandal Locks, and more.

Proudly manufactured in Ottawa, Ohio — supporting American jobs and delivering Buy America compliant vehicles with full vertical integration from design to delivery.
